DETAILED ACTION

Applicant's response filed February 12, 2007 have been entered.

The remarks of Applicant in response filed February 12, 2007 have been considered, and are found persuasive to withdraw the outstanding rejections under 35 USC 112.

The following is an examiner's statement of reasons for allowance: The article by Taira, provided by the applicant, mentioned two female patients while taking zonisamide, also take valporic acid. Therefore, it is not clear the tremor experienced by the patients are caused by zonisamide alone or the drug-drug interaction between zonisamide and valporic acid. Since the applicant further provides evidence on the clinical study of zonisamide treating tremor to demonstrate the effectiveness of zonisamide in treating tremor, the enablement rejection is therefore withdrawn. Furthermore, one of ordinary skill in the art would have been routinely ascertain the tremor-treating effective dosage of zonisamide. Therefore, it would not be undue experimentation for one of skilled in the art to ascertain the effective dosage to treat tremor in the instant case.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 12-35 are allowed.
